- JavaScript, Python, C#
- Node.JS
- SQL, Sequelize
- PostgreSQL, Access, Microsoft SQL Server
- Git, GitHub
- Management Studio

## WORK EXPERIENCE

### AMERESCO INTERN

June 2023

- Utilized a combination of Python, SQL, and Microsoft SQL Server to create Excel Spreadsheets from over 8,000 JSON files.
- Created a Power Automate flow that manipulates daily trend reports, using an Office Script I wrote, to be formatted correctly automatically for a client's SFTP Server.
- Collaborated with other interns to input and correct data to meet a deadline for a client's energy star certification.

### BAIRD & WARNER REALTOR

March 2021

- Collaborated with a variety of Realtors and Attorneys to successfully accomplish the sale of 13 different properties.
- Taught 4 first time home buyers about buying a home in a way that was easy to understand.
- Was a founding member of The Circle Realty Team that work together to create leads, make sure all clients are taken care of, and collaborate in marketing.

### LEGEND'S CONCESSIONS COURTYARD SUPERVISOR

May 2019-April 2021

- Managed a courtyard of 8 stands (42 workers) to sell beverages in a high-pressure environment.
- Helped recover over \$1000 in revenue from faulty point of sale system using level-1 IT techniques.
- Demonstrated exceptional customer service skills by proactively engaging with customers and successfully upselling products.
